Agenda

- **Overview**
- **Functionality**
- **Features**
- **Online Demonstration**
- **Summary**

EPICS is a fully web-based, 508 compliant, COTS application that operates with encrypted technology. Its multi-tiered architecture and forward thinking design support all types of data exchange, from legacy data to today's Service Oriented Architecture (SOA).

- **Provides business intelligence, planning and budgeting, consolidation, profitability management, analysis, and reporting capabilities across your enterprise.**
- **Aligns specific information and resources to strategic objectives, creating superior business insight and helping organizations achieve world-class performance.**
- **Regardless of your industry or business size, EPICS products help:**
 - Align operations with corporate strategy
 - Actively manage risk
 - Collaborate across the enterprise
- **Offers an Automated, Highly Flexible Development Environment**
 - Integration and Business Modeling Tools
 - World-class Usability
 - Predictive Customer System-Specific Diagnostic and Support Tools

- **Provides a broad range of modules to help manage complex business and government models with built-in reconfiguration switches enabling each business or agency to easily configure their system to meet unique requirements.**
- **Maximizes efficiency through electronic routing, workflow management, extensive tracking and audit capabilities, and comprehensive metrics and reporting.**
- **Supports a wide spectrum of technology infrastructures.**
- **Designed for the most complex business requirements providing web service integration with multi-vendor and homegrown applications easily configured and adapted to meet the most unique customer requirements.**
- **Leverages the flexibility of a modern, business logic engine with a complete set of modular business applications engineered for simplicity within a single system.**

- **Products**
 - EPICS — Contract Manager
 - EPICS — Task Order/Delivery Order Manager
 - EPICS — Performance Measurement Manager (Earned Value Management)
 - EPICS — Budget Manager
 - EPICS — Office Automation Suite
 - EPICS — Workflow Manager
 - EPICS — Integration Tools
 - EPICS — Reconfiguration Tools
- **Markets**
 - Federal Agencies (DOD, Civilian, Suppliers)
 - Corporate Entities
- **Solutions**
 - Contract Management
 - Budget Management
 - Grant Tracking
 - Performance Measurement (Earned Value Management)
 - External Systems Integration
 - Office Tool Integration
 - Enterprise Collaboration Tools
 - World Class Training and Support

- **Contract Management**
 - Integration with FAR
 - Contract Configuration Change Management
 - Task & Delivery Order Management
 - Voucher & Invoice Management
 - DRD Deliverable Management
 - RFP Generation
 - Contract Closeout
 - Proposal Evaluation System
 - Delegation Generation
- **Performance Measurement Management**
 - Earned Value Management
 - Award Fee Reporting
 - Integration with Budget Manager
 - Integration with Cost Tracking Manager
 - Integration with Delivery Manager
 - Schedule Manager
 - Performance Reporting Manager
 - Surveillance
- **Budget Management**
 - Budget Baseline Formulation
 - Budget Configuration Change Management
 - Budget Account Tracking
 - Resource Management
 - Program Operating Plan (POP)

- **Work Flow Processing**
 - Work Flow and Process Management
 - Authority Tracking
 - Document Generation and Repository
- **Metrics and Reporting**
 - Official Reports and Metrics
 - Ad Hoc Reporting Capabilities
 - Data Mining and Retrieval Capabilities
- **Office Automation**
 - Integration with Office Toolsets
 - Automated Electronic Notification and Tracking
 - Action Tracking/Correspondence Tracking
 - Context Specific Documentation Repository
- **Open Technology Architecture**
 - External Integration
 - Scalability
 - Reconfiguration
 - Outstanding Data Integrity
 - Security & Encryption

BASTION
TECHNOLOGIES

Demonstration

- **Online Internet Demonstration**

BASTION
TECHNOLOGIES

Summary

- **EPICS Software**
 - **COTS Program Management Tool**
 - **Proven Success**
 - **Completely Reconfigurable**
 - **Highly Integrateable**
 - **Modular and Scalable**
- **Q & A:**

Contacts

- **NASA IT Manager:** Michael Garcia
281-283-9330x210; michael.d.garcia1@jsc.nasa.gov
- **NASA Contracts:** Amy Spradlin
281-283-9330 x224; aspradlin@bastiontechnologies.com
- **DOD Contracts:** Joe Dilorio
281-283-9330 x223; jdilorio@bastiontechnologies.com
- **Commercial/Oil and Gas:** Scott Kopsik
